

* January 5, 2021 01:30 PM
* Representative Barry J. Jozwiak
* Registration Plate Expiration Stickers
*
* In the near future, I plan to re-introduce legislation (Previous House Bill
* 1509) that will require PennDot to issue registration expiration stickers
* on Pennsylvania registration plates.
*
* The previous bill passed out of the House Transportation Committee in
* September 2020 by a vote of 19-6.
*
* PennDot stopped issuing the registration expiration stickers in January of
* 2017.
*
* Since then PennDot has lost considerable revenue.
*
* Twenty-two million in 2017, eleven million in 2018 and eighteen million in
* 2019, for a total of approximately fifty-one million dollars.
*
* The absence of the expiration stickers has hindered the performance of both
* law enforcement and PennDot.
*
* Law enforcement is now without a significant tool previously used to
* legally identify and stop unregistered and uninsured vehicles in
* Pennsylvania.
*
* Consumers have faced challenges while traveling out of state from law
* enforcement officials expecting to see a sticker on the Pennsylvania
* license plate.
*
* As mentioned above, PennDot has lost significant revenue over the last
* three years.
*
* Issuing the registration expiration sticker on the license plate will
* ensure that all vehicles in the Commonwealth are properly registered and
* insured and will restore the lost revenue that PennDot claims it so
* desperately needs.
*
* Please consider co-sponsoring this important piece of legislation.
*
* Thank you.
